

Bordetella vaccination that's...

Stressless

RECOMBITEK® Oral Bordetella

Effective for patients.

Easy for everyone.

Feature & Benefit

Needle-free reconstitution and administration	Saves a step to speed the vaccination process. Prevents accidental subcutaneous injection or staff injury, designed to provide a stressless vaccination experience for everyone involved
Diluent-filled ergonomic pipette and flip-top vial cap	Offers easy, convenient reconstitution and administration
Mucosal vaccine provides optimal promotion of IgA antibody production^{1,2}	Delivers protection without requiring a booster. Promotes IgA antibody production throughout the patient's mucosal lining. IgA works by a process known as immune exclusion, attaching to the pathogen before it can inhibit cilia and damage cells
Proven efficacy³	Efficacy data demonstrates protection against <i>Bordetella bronchiseptica</i> infection that veterinarians and clients can trust
Satisfaction guarantee*	Builds customer confidence that they will receive an effective, positive vaccine experience—backed by a trusted name in animal health

CHECK-OFF & ECHO NOTES

First, always ask if a Boehringer Ingelheim Animal Health representative has visited the practice recently:

Doctor, have you been introduced to RECOMBITEK[®] Oral Bordetella, the stressless Bordetella vaccine for dogs, with the advantages of mucosal administration plus unique design features for your staff's convenience?

If **YES**, confirm the benefits!

If **NO**, detail as the primary contact.

Confidence

Because it's designed to be effective and stressless, I believe RECOMBITEK Oral Bordetella can make it easy for you to protect patients from this highly contagious respiratory pathogen.

Invitation (neutral)

Let's take a look at some key features of RECOMBITEK Oral Bordetella ...

Acknowledge the customer as the decision maker:

...so you can determine whether RECOMBITEK Oral Bordetella is the right choice for your patients and practice.
